SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In

the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most planets Below the Horizon

You have the majority of your planets below the horizon showing that you need time each day in isolation in order to recharge your batteries. You have a personal approach to life, preferring to work with people more than things and needing contact with the familiar in order to feel secure.

Most Planets Setting

You have the majority of your planets on the western half (or right-hand side) of your chart. Your natural tendency is to seek others' approval and to question the probable outcome of an action before putting your first efforts forward.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

No Quadrant Emphasis

You tend to diversify your energy and attention to several different areas of life. You may have difficulties in achieving your goals in life until you order your priorities. You can be a master at balancing many different aspects of life when you learn to use your time wisely. Avoid letting your mind dwell on projects you are not immediately engaged in. Keep your attention in the here and now and your life becomes much simpler.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of

the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

You have a lot of fire in your chart. Fire is the element of energy, enthusiasm, and immediate and spontaneous focus on the self. You go from event to event selecting projects that give the full range of outlet for your energy. This process of selection is precognitive, instantaneous and automatic. People respond to the inspirational spark in you and your enthusiasm and boundless exuberance is evident whenever you are being your real self.

Earth

You have 20% of your chart in the earth element. You have a natural knack for dealing with money, material resources, and projects where the end result is important. You may worry about your results and be very concerned that you aren't doing as well as you should materially. Still, in the long run, you are quite accomplished in knowing how to get the most out of existing conditions.

Air

You have no air in your chart. This shows that you spend little or no time thinking about abstract issues. You go straight to the "bottom line". It often appears to people that you come up with an answer to a question without any intermediate reasoning process. You do need to be careful that you don't act before you think, but the truth of the matter is that you just don't need to go through a slow, logical process. You need to be sure that your style of action does not offend people you wish to be close to. You may seem to lack diplomacy but this doesn't mean you are lacking in interest in people or that you don't care about others.

Water

You have an abundance of water in your chart. You are very emotional and quite empathetic. You feel others' pain so deeply, you can be moved off the path from your

own goals unless you develop a strong sense of self-definition so as to separate out your own needs from those of others. You need something to do in life that gives full ventilation to your feelings. Your sentimental and emotionally potent approach to life polarizes people who will either appreciate you for this trait or be repulsed because of it. You tend to separate people, in your mind, into those that belong and those that don't. You find any habit, good or bad, very difficult to change.

2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

Fixed

You have 20% of your planets in the fixed mode. You don't have as much stick-to-itiveness as most people. Still, if circumstances require it, you can put forth great amounts of energy in a controlled way, treading water until new opportunities to act present themselves.

Mutable

You have an abundance of mutability in your chart. You are a thinker and attempt to accommodate a number of circumstances and people in your environment. You may have difficulty choosing a direction and staying with it. Truth has a way of becoming a

highly personal subjective factor; consequently, others think of you as not being able to communicate simple truths in a factual way. You are nervous and may need more B-Vitamins in your diet, rest, and meditation in order to be balanced.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

VIRGO RISING

You are focused on service to others and have a tendency to idealize anyone you are involved with. You are a good worker and very productive when your eye for detail and criticism don't slow you down to the point of making advancement difficult. Before taking on the particulars of a situation you should clarify your desires and ideals, as well as decide on a path of action and method of implementation; then, your life is productive, happy, and organized. When your feelings about yourself are too insecure you have the bad habit of looking out into life and trying to see what is possible, rather than looking into your self and seeing what you really want. Under these circumstances the details explode in front of your sight in a way that can easily lead you to the belief or feeling that you're beaten before you start. Your picture of yourself and of life are inherently attached to achievement and usefulness. Generally, you do best in life by starting projects small where you can control all the key variables and expand outwardly from there.

Mercury Opposition the Ascendant and in the 6th House and unafflicted.

You are most curious as to what is going on in others' lives and have some special insight as to what moves them to action. You have a deep effect on people and your communication skills are always helpful. You need to guard against a tendency to do things merely so others will think well of you. This can subtly alter your thinking along lines that will win people's approval while it gradually leads you away from your own thought process. This makes it easy for you to know others but hard for you to know yourself. You find yourself in service to others because other people and their concerns have a very deep and formative hold on you.

Venus Quincunx the Ascendant

You reach for an unattainable beauty. Your quest for a higher ideal becomes more fulfilling as you get older and learn patience which is the key to moving from escapist confusion to powerful and enriching expression of your love nature.

Mars Square the Ascendant

You are often frustrated. The roots of your anger, causing so much pain in your life, are conflicting desires. This conflict can certainly make for difficulties in both your professional and family life. Strive to make your inner conflicts explicit so that you can understand and come to terms with them. Find safe, physical releases for your pent-up energy.

Uranus Square the Ascendant

Your need for independence seems to take precedence over everything else. You have an inner compulsion that you should be able to do anything you want whenever you want. This can be dangerous, contributing to accidents, physical, mental and emotional nervousness, and explosive fits of temper. You are humanitarian and have a love of people. Instead of being rebellious and iconoclastic, as your personality becomes more stable, you become adventuresome and inventive. Personal freedom is so important to you that you let nothing get in the way of your exercising it. When this creative quality is integrated into your personality you do much to elevate other people's lives.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to

as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

GEMINI MIDHEAVEN

You enjoy work that supplies you with lots of opportunity to express yourself and have love of variety. The truth may be an illusive ingredient and you may struggle to see things "as they are" rather than as you wish them to be.

Mercury Square Midheaven

You are known for your communication skills. The way that you express yourself is corrected by some authority in your life. You need to fight a tendency to change the externals as a mechanism for relieving an uncomfortable situation. Instead of running away, learn to change yourself. You have something to say, learn how to express it. You need to overcome a tendency to say the wrong thing at the wrong time.

Venus Sextile Midheaven

You love a beautiful environment and are good at knowing how to find yourself in comfortable surroundings. You have a certain graciousness that helps you in any social situation.

Mars Applying Opposition to Midheaven and unafflicted.

You have strong emotional energy. The energy inside of you has to be channeled into something or you become quite difficult to live with. You want freedom, independence and control. Some of this need for exuberant self expression can be funneled usefully into your job. Some of it can't. You have an excess of untamed and explosive feeling which are often bottled up in your emotional nature. This material needs some directing into mental, emotional, or physical projects in your personal life. Without some conscious channeling on your part, there is always a chance that torrent currents of desire will unconsciously spill over, having a negative impact on your close personal relationships.

Uranus Separating Opposition to Midheaven and unafflicted.

Your need for freedom expresses itself through your ability to apply your insights constructively, innovatively, and quickly. You want control over mundane decisions in your work and you can acquire this by expressing your uniqueness.

Pluto Sesquiquadrate Midheaven

You are a creature of extremes. You experience being both very open and available to others as well as closed and exceedingly cut off. Highs and lows follow you naturally. You are good at catching unique insights as to how things could be. When your own will is in check by your reason, you are able to focus great energy on any project in a constructive manner.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

Moon Conjunct Pluto

Think of Sections III. THE MOON - Your personal life, and XI. PLUTO -Your need for fundamental change, as a single unit. This Conjunction colors your unconscious habits and your basic attitude toward life. This is an extremely important ingredient of your identity and represents a primary attribute of your personality.

Mercury Conjunct Jupiter

Think of Sections IV. MERCURY - Your mental life, and VII. JUPITER -Your values, as a single unit. This Conjunction is a central indicator of the way you interact with people and your environment

Mars Conjunct Uranus

Think of Sections VI. MARS - Your energy, and IX. URANUS - Your search for freedom, as a single unit. This conjunction shows your spontaneous and creative qualities. This is a central theme of your nature.

Mars Conjunct Neptune

Think of Sections VI. MARS - Your energy, and X. NEPTUNE - Your spiritual aspirations and ideals, as a single unit. This Conjunction shows a central them in your life vision.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN ARIES

You feel yourself to be a natural leader. You are always looking for the spot at the head of the company or the class. You are unconcerned with whether or not others follow you on your various crusades and campaigns. Your basic nature is independent and instantaneously self-expressive. You are good at sizing up a situation quickly. Because you are impulsive, others may think of you as thoughtless or careless. You do often lack patience and tolerance with others. Learn moderation and life is easier.

Sun in 7th house

You easily submerge your own identity into your key relationships. The texture of these

relationships is an underlying guiding force in your life. You have the uncanny ability to relate to two people, or even a large group, as if they were one person. Despite this uniqueness you are most comfortable relating to one person at a time because you are interested in the concerns of each individual in your life. This attribute conveys upon you an outgoing quality and an enthusiasm that is contagious.

Sun in 7th house Unafflicted

You have a natural feeling for other people's situation. This can mean you are a considerate lover or a good salesperson. You take joy in watching others achieve their goals. You have a unique role to play in other people's development.

SUN IS IN HARD ASPECT TO YOUR MARS

You are energetic and brave but sometimes too impulsive or rash. You hurt yourself and others at times through outbursts of temper. You can back a losing cause at times, throwing good energy after bad. You do this because you view your goals through a desire-incrusted lens which distorts your vision or because you mis-evaluate your own power, or both. You can guard against this tendency by learning to draw conclusions from all of life rather than just your own immediate wants. You are naturally powerful but need to guard against the tendency to run over others.

SUN SQUARE YOUR MARS

You are full of energy and passion. Your intensity and power color everything that you do. Planning and focus are very important because your goals switch and your desires are always changing. When you are angry, thoughts of revenge and general hate or avarice drag you into a pattern of destruction. Your energy stays productive when you acknowledge, then harness your desires.

SUN IS IN SOFT ASPECT TO YOUR SATURN

You are self-disciplined and self-aware. You are ambitious and are willing to work hard to put your vision into action. Your naturally conservative instincts lead on a safe and sure path although it may well be a slow one. Being basically of sound judgment and reliable, people tend to trust you; these qualities alone may put you in a position of leadership at some point.

SUN TRINE YOUR SATURN

Your upbringing, family, and personal history lead you to expect the good in life. Your lofty expectations underlie the "lucky breaks" that come to you. Your personality has a cautious, serious, and disciplined ingredient that supports your vision of life which is practical and specific but also limited. Your productivity is linked to your instinct for finding the "law of gravity" operating through the center of any project.

SUN IS IN HARD ASPECT TO YOUR NEPTUNE

You have a deeply secretive side to your nature. You are romantic, humanitarian and idealistic. You suffer from an excess of emotion and exaggerated sensitivity to anything that goes wrong in life. Unfortunately, something going wrong can mean merely that it didn't live up to your expectations which can be quite inflated. Your life becomes a dynamic, unstoppable force for good once you accomplish two things: one, you must become self disciplined (i.e. ascetic) enough that you overcome self-indulgence in every form, and two, you must know life by knowing, really knowing, yourself.

SUN SQUARE YOUR NEPTUNE

Idealistic and hypnotic, you dissolve the world around you. Your sense of self and the world is without boundaries. Definition is difficult for you because of this. You can lighten up and inspire others, but, lead them down the "primrose Path" until you know where you are going. Once your own direction is clarified (no easy task) you can help others. You are compassionate but have confusion as to an appropriate manner of expression. Until you gain self-definition helping others is always fraught with danger .

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day

adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

MOON IN SCORPIO

You are intense and determined. You take your emotions very seriously. You have a deep attachment to the past and a passionate and proud nature, willing to go your own way when the crowd is moving in the wrong direction. You have the ability to make your life better because you know how to use past experiences positively. Your feelings are quite magnetic and people either love or hate you, but they are seldom indifferent to you.

Moon in 2nd house

You have an emotional need to know that the bills are paid. You have some fears connected with lack and you will attempt to create some material security as a guard against worry. Your natural instinctive pattern in life tends to be along cautious, conservative lines.

Moon in 2nd house Unafflicted

Money and material possessions come and go in life but somehow you always manage to have a "nest egg" tucked away. Your attachment to the past can manifest best through your ability to remember the positive qualities of others.

MOON IS IN SOFT ASPECT TO YOUR MERCURY

You are intelligent with a good grasp of meanings and a good memory. You adjust easily to changing circumstances, draw quick generalizations and can communicate your findings to the public. You learn new things easily. You are able to expand and build on what you learn because you have a good imagination.

MOON TRINE YOUR MERCURY

Quick-witted and multifaceted, your mind and hands move from one thing to another

with great dexterity. Your mind moves swiftly to the point and you can easily turn the right phrase to cast the current situation in the right light. You excel in any field where intelligence and communication skills are helpful. Your instincts are usually correct and in step with public sentiment.

MOON IS IN HARD ASPECT TO YOUR MARS

Outbursts of anger and emotional extravagance get you into trouble. You are always finding your limits by exceeding them. Better to learn to think before acting. Planned intervals of strenuous physical activity can take the edge off of contentious emotions and help you obtain some deeper balance. Don't eat when upset and your health will be better. Link your energy to some humanitarian, idealistic project and your perspective widens and your life improves.

MOON SEMI-SQUARE YOUR MARS

Nasty emotions surface, leading to uncomfortable conversation and arguments. Try to be less touchy so your quick wit can emerge in a constructive way. An underlying nervousness needs control.

MOON IS IN SOFT ASPECT TO YOUR JUPITER

You are religious, dignified with a sense of justice which gives you a public image of being honorable and trustworthy. You are well liked and successful. You have a strong moral sense and are willing to take a stand on your beliefs. The good comes to you in life.

MOON TRINE YOUR JUPITER

Faith in life and basic, conservative instincts gives you position and prominence in your social circle. Others support you publicly and you are an inspiration to them. The public generally holds certain values as obvious truths. You subtly and instinctively reinforce the values and basic beliefs that power the decisions in most people's lives. Thus, you create a feeling in others that you are "one of us". You make the right choices. Your character seems trustworthy to others and you seldom disappoint them.

MOON CONJUNCT PLUTO

Your emotions guide your life and operate at the extremes running the gambit from boiling to frigid. You are either on or off. Handling your feelings may well be the key to

this life for you. You are basically curious about everything. When you find your life dull and boring, it is because you have the blinders on. Reach into your depths and you will find hidden fears and responses to past hurts have closed you off from life. Let your past die and you are free once more. When you direct your powers of perception back towards the outer world, you find that you are capable of working in the greatest of abstract realms. You are naturally good with anything involving symbols, mysteries, secrets and research.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN PISCES

Your mind is reflective to the point of being chameleon-like. Why? Because you think with your feelings and translate thoughts into something at the core of your being. You don't just imitate, you become. You have an artistic and very attenuated manner of communicating. You have an openness and can incorporate several points of view. You often see the humor in a situation and are good at expressing it. You adjust to changes at a profound level. You only need to be concerned about this if you find yourself becoming confused or lazy. This is the sign that you are repressing your own insights while accepting someone else's. Try to gain a detached look at your own drives when this happens.

Mercury in 6th house

You generally want to keep checking your facts. You recognize the value of understanding how things operate. Thus, you may strive to increase your technical and practical knowledge. You may have some special interest in pets.

Mercury in 6th house Unafflicted

You have good manual dexterity and instinctual sense for what will work and what will not. Good work habits and a positive belief in your ability give you a competitive edge

on the job.

MERCURY IN ASPECT TO THE MOON

This indicates that you have a very personal, feeling mind. You have a very close personal use for your mental life. The details of this connection were discussed in Section III. The Moon -Your personal life.

MERCURY CONJUNCT JUPITER

You have a fun-loving and optimistic outlook on life. You see the broader implications to what goes on around you and because of this you have a deep understanding of the troubles of the moment as being just that! Of the moment. Also, because of this long view of life, you don't always grasp the details of circumstances. You have a moral perspective and are concerned more with how things ought to be more than with how they are.

MERCURY IS IN HARD ASPECT TO YOUR URANUS

You get great ideas, even brilliant at times. Still, others don't always hear what you are saying and this makes you angry or standoffish. Whenever this happens, recognize that you need to be thorough and practical or else the world will not see what you have found so interesting. This is not the world's fault. Slow yourself down long enough to learn how everyone else does things and you will find a natural channel for getting your ideas across. Remember, a good idea is only a good idea until it is put into practice. Get physical exercise and you might find your nervousness much easier to control.

MERCURY SQUARE YOUR URANUS

You are an original thinker but you find yourself creating rebellion and moving to the left of even your own co-thinkers. Spontaneous internal combustion in your mental life keeps you moving toward freedom, without getting closure. Your nervous and iconoclastic attitude makes you difficult to get along with. Practice listening to others without devaluing them in your mind and you will overcome your natural mental self indulgence.

SECTION V. VENUS - Your Love Nature.

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

VENUS IN ARIES

You are a pioneer in love matters. You take charge, make the first move and supply the adventure. You are direct in your approach to others. You love adventure but have a need to be first and don't adjust easily to others' moods and feelings. You may fall in love quickly and out of love just as quickly. You find inner peace through your mental activity and by a spontaneous inner devotion. Your high-mindedness and enthusiasm are a tremendous asset. Restraint is difficult but necessary at times.

Venus in 7th house

You place a lot of time and energy into relationships. You have a good sense for what others want and need. You have a strong need to please others and wish them to like you. This in itself can be an aid in negotiations and in all of your dealings with people.

Venus in 7th house Unafflicted

You experience much happiness through marriage. You have the ability to compromise and you attract a partner who is so inclined. Your natural instinct is to reach out to others, attempting to incorporate into your own life what you see in them as good.

VENUS IS IN SOFT ASPECT TO YOUR MARS

You are a good partner and a good relater. You have a positive interest in marrying and will probably settle down in a permanent relationship early in life. You have an eye for value and will do things with people that increase your net worth. You are practical and make decisions that are profitable.

VENUS TRINE YOUR MARS

You are destined to have a lot of relationships and a strong sexual attraction goes to and from you. You enjoy life and people and are intensely creative. You find fulfillment through some creative enterprise.

VENUS IS IN HARD ASPECT TO YOUR JUPITER

You have extravagant taste and certain primitive vanities that leave you vulnerable to being manipulated and used by others. You have difficulties in telling who your real friends are. Money and good times come to you but they tend to be unstable. Your romantic life is very unsettling even though very interesting. Overindulgence gets you into trouble more than once but for all your flaws people basically like you so you stay "people rich" even when you are "dollar poor". Money comes and goes in great quantities and when you learn to save you have security.

VENUS SEMI-SQUARE YOUR JUPITER

Vanity and poor judgment can detract from your otherwise charming personality. Being pleasant and kind, others can misunderstand your exaggeration and wishful thinking. Strive for clarity and you will seldom be disappointed.

VENUS IS IN HARD ASPECT TO YOUR SATURN

You have some real difficulties in love relationships and with the material world. On the surface, you are a gentle soul just trying to keep what is yours and trying to stop the world from taking advantage of you. Underneath this veneer you are driven by fear and greed and your life is poorer for it. Your instincts are conservative and you are frugal with money but this isn't sufficient to offset poor judgment with people and things. Reappraise your way of being in the world. If your hand is closed no one can take something from you, neither can you receive what others wish to give you.

VENUS SESQUIQUADRATE YOUR SATURN

Emotional anguish makes your life inwardly stormy and outwardly very reserved. As you get ultra-specific as to what you are really feeling toward others, your own confusing and inner tension lifts. Stable reliable friends can easily be your emotional bedrock in life.

VENUS IS IN SOFT ASPECT TO YOUR URANUS

You are a colorful and romantic individual that looks for the unique in life and generally finds it. You have unusual ideas about sex and human relationships. Behind your revolutionary zeal is a real humanitarian that wants to see a better world free of prejudice. You have a good eye for spotting unusual sources of income. Although the

picture fluctuates a lot, finances get easier as you get older.

VENUS TRINE YOUR URANUS

Your artistic and dramatic flair thrusts you forward every so often in ways that create a new expression for your feelings. Your taste is exotic and you look for expressions of your love in ways that create exhilaration and a sense of personal freedom.

SECTION VI. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

MARS IN CAPRICORN

You have desires which are naturally aimed at worldly success or positions of responsibility and authority. You are passionate and ambitious. You are practical so your method for getting what you want in life is to be persistent, patient and to sustain your energy and interest in one direction long enough to achieve success. You are self-reliant and conscientious. Don't take on too much and strive to see more than the serious, practical side of life. You believe in yourself, now believe in others.

Mars in 4th house

You will feel a strong need for control in your environment at a very early age. As a child you may have created a mess many times to get a feeling of control. As an adult, this same need can carry over. Be sure that you don't take out your frustrations on people you live with or your family. You may be most productive working out of your home. This is often where you feel most secure. In many respects you are a loner. Get time by yourself each day.

Mars in 4th house Unafflicted

Your luck lies clearly in your perceptions that your life will improve. No matter how many setbacks you suffer you always believe that life will get better for you. Generally,

life lives up to your expectations. You become more active as you get older.

MARS IN ASPECT TO THE SUN

You have an aspect of Mars to the Sun. This shows that you have a very strong and direct nature. Your energy and vitality are key ingredients to your self concept. This issue is taken up in some detail in the Section II. The Sun - Your Ego Structure.

MARS IN ASPECT TO THE MOON

Mars in aspect to the Moon shows that you have a lot of energy wrapped up in your instinctive consciousness. This insight is detailed out in Section III. The Moon - Your Personal Life.

MARS IN ASPECT VENUS

You have Mars in aspect to Venus. This aspect shows sex appeal and interest in romance. This aspect is covered more fully in Section V. Venus - Your Love Nature.

MARS CONJUNCT URANUS

You truly "march to a different drummer". You have some difficulty hooking up with others emotionally because of your detachment and quirky forms of expressing your feelings. You are a humanist but not particularly personal. Your brand of romance is aimed more toward ideals than to people for their own sake. You have a strong will and are capable of putting an unbelievable amount of energy into a project. Your enthusiasm for a person, a program, or a process can be short-lived because you don't like to be tied down. You have made freedom a religion and the urge to be free has claims in its own right on your personality. When you are committed to a course of action though, you can go harder and longer than others around you. Physical exercise is important daily to ensure emotional and physical well-being and balance.

MARS CONJUNCT NEPTUNE

You are colorful, magnetic and very devotional. In some subtle way you inspire and encourage others without ever coercing them. You are idealistic and very emotional. You can be quite committed to a cause that represents your highest ideal. This may lead you to find some way of expressing your ideal which could be in religion or in some artistic activity. You have acting talent because you can become anything that responds to your higher perception. For the same reason, you can be quite a beautiful dancer.

Because your powers of perception are so all inclusive they can become quite passive. When this happens, you get interested in photography as the ultimate in passive creativity.

SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

JUPITER IN PISCES

You are exceedingly idealistic, seeking meaning in a higher philosophic purpose. Yet, translating your beliefs into something practical requires self work. Everything (including your self picture) is amplified by your values. To become truly giving and compassionate, you must come to terms with who you are, which in turn puts the rest of the universe in proper perspective. Your motivation comes from your inner vision which is all inclusive and truly universal in scope. Progress requires clarity of your goals and beliefs as well as self definition. At your best your ideals express a very genial, benevolent, and peaceful attitude toward life. From this platform of values, you serve the world in a wholehearted manner. Although you are secretive and require privacy and rest, you do wish to serve humanity. Your service may be direct or may boil down to meditating on uplifting the human spirit or in just thinking nice thoughts about others. Your emotional and devotional nature finds positive outlet through charitable causes and social institutions that do something for public welfare. You are easygoing with an interest in cultural pursuits. The arts give you some higher vision of truth and beauty as well as help you be balanced and less susceptible to other people's demands. The work of clarifying your inner vision and self perception is very important because, if you feel bad about yourself or take yourself too seriously, you become secretive to the point of being abstruse and devious. This will lead you to ideals that are entirely self-serving and closed off from others. But, regardless of whether your values be good or bad, you are lucky, being spared the logical consequences of your action by some kind of outside intervention. This appears to be just jolly good luck to onlookers but it is really your power of attraction and deeply embedded faith in the goodness of life, working itself out through unconscious channels; for, more than most people, you have faith in life. Further, your lighthearted attitude and sense of humor buoys up your

spirit. You only suffer if you lose track of this inner lightness or succumb to the tendency to take yourself too seriously. Keep a good balance between private and public life and your spirit stays in a productive and casual place.

Jupiter in 6th house

You are a very resourceful worker and can make a lot happen in relatively little time. You can be uncompromisingly disciplined when you see the need for it. Overdoing or overindulgence can be the source of health frustrations. You may have to work at learning moderation.

Jupiter in 6th house Unafflicted

You are a great enabler. Even if the program and ideas originated with someone else, you know how to get things done. You are excellent in being able to attract the best from others in a work situation. You know how to play on the team.

JUPITER IN ASPECT TO THE MOON

You have an aspect from Jupiter to the Moon showing an interest in expressing values through your daily life. What you believe has more impact on what you do than it does for most other people. The information on this topic in Section III. (The Moon - Your Personal Life) may be helpful in grasping how you do this.

JUPITER IN ASPECT TO MERCURY

You have Jupiter in aspect to Mercury indicating a deep commitment to communicate something of value. You will have a commitment to knowing the truth and conveying it to others. You will find some further information on this topic in Section IV. Mercury - You Mental Life.

JUPITER IN ASPECT TO VENUS

You have an aspect of Jupiter to Venus. This indicates that you expect the positive to happen. Your life values easily adjust to your taste, love nature and your sense for the beautiful. This creates some feeling of abundance for you. Your values are in tune with your affection. You may find the information in Section V. (Venus - Your Love Nature) useful in understanding this process.

JUPITER IS IN HARD ASPECT TO YOUR SATURN

You suffer because you remember your failures more than your successes and consequently have a hard time developing a picture of yourself as a winner. In this sense you were born old. However, this same quality engenders a childish quality in you that tends to look for the "quick fix". Hard work and consistency of effort brings success for you just like it does for everyone else. Yes, you need some luck or some breaks, but these come from perspective, vision or aim in life. Work to see yourself as deserving good things in life, then be willing to put forth honest effort.

JUPITER SQUARE YOUR SATURN

Your picture of life is bigger than your skills. Achieving your goals requires both patience and stamina. Once these virtues are mastered you are able to work with the culture as well as your immediate environment rather than being at odds with the world. Fears have to be faced rather than ignored in order to stop having periodic reversals of your business interests. Your fears stop you from recognizing genuine opportunity to progress and are responsible for getting you to grasp wildly at imaginary opportunity. Both of these things stop progress in life from being consistent or personally meaningful.

JUPITER IS IN SOFT ASPECT TO YOUR NEPTUNE

You have spiritual insight into problems that aids your skills in finding solutions. You emit a certain charm that greases the wheels of life. You have broad appeal that engenders trust in the general public, regardless of whether or not you can sustain this trust from those who see you close up.

JUPITER SEXTILE YOUR NEPTUNE

Your faith in life and in people gives you a gift. You are able to turn difficult situations into positive ones. Further, any time you concentrate on your own talents and innate goodness, circumstances improve.

JUPITER IS IN SOFT ASPECT TO YOUR PLUTO

You have natural leadership qualities, insight into social and spiritual needs and a sense of humor that stops you from taking yourself or the world too seriously. You have the ability to teach others because you emit a certain magnetic charge on all that you say and it stays with people. But, more important than your skill at disseminating information is your ability to find and go directly to any situation that will help you

learn and grow. You are on a quick track in this life and have determined to work on improving the attributes of your personality that need development the most. You will have material abundance in this life but it may have little importance to you once attained since you are really looking for freedom, and the material abundance only brings you more worldly responsibilities.

JUPITER TRINE YOUR PLUTO

You have luck that won't quit, and consequently you are often cushioned against the worst results that could have come from the mistakes you make. You explore and experience a lot and sometimes take a wrong turn or go too far. But you do learn. You have a knack for turning defeat into a fortunate opportunity to grow and change perspectives.

SECTION VIII. SATURN - Your Obligations.

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

SATURN IN SAGITTARIUS

You are motivated by a fear of being restricted or held back. You are independent and ostentatious. You have a strong need to gain some recognition for your intellectual achievement. This is hard to accomplish partly because you are really quite cynical and this stops you from getting a really fair hearing at times. Still, you have real interest in philosophical and spiritual questions. Leadership comes to you naturally in time. Your growth through time keeps shaping your values which are powered by your positive self-perception. You grow through failure as much as by success.

Saturn in 3rd house

You seem to work harder than most people at learning basic communication skills. You may feel that you didn't get as much formal education as you wanted or needed. Or, you may have gotten an early education which wasn't to your liking.

Saturn in 3rd house Unafflicted

Your intelligence and insight increase as you age. You try to make sure that your assertiveness can be checked against observable fact. You learn from your mistakes and you learn at your own pace. Mentally you can be a slow, logical, and accomplished builder; it just requires you to carefully inventory and use what you already have.

SATURN IN ASPECT THE SUN

You have Saturn in aspect to the Sun showing that you identify deeply with your obligations in life. This aspect of your nature is explored more deeply in Section II. The Sun - Your Ego Structure.

Uranus in 3rd house

You should be careful that you always keep your attention on what you are doing while in a position of trust, as when you are driving.

Uranus in 3rd house Unafflicted

You seem to create success by darting back and forth in a completely unique and unrepeatable fashion. There is a spontaneous quality to your method and a uniqueness to your thought processes that others find enjoyable.

URANUS IN ASPECT TO MERCURY

You have Uranus in aspect to Mercury. Your Mental attitudes express your quest for freedom. This is explained in Section IV. Mercury -Your Mental Life.

URANUS IN ASPECT TO VENUS

URANUS IN ASPECT TO MARS

You have Mars in aspect to Uranus which means you are attempting to raise the vibration of your desire nature during the course of this life. Exactly how that works out in the day to day world is shown by Section VI. Mars - Your Energy.

URANUS IS IN HARD ASPECT TO YOUR PLUTO

You provoke violent responses in others. There is a fanatical side to your idealism and you are often involved in revolutionary projects that seem simply destructive for no good reason. You see yourself as some kind of intellectual pioneer but you don't help the world much until you recognize that ends and means are the same. Violence begets violence and love breeds love. The ends you achieve in life are the exact by-product of the means used for getting to them. Good and humanitarian ideas can only be of real help in life when they are implemented with love and respect for life.

URANUS SEMI-SQUARE YOUR PLUTO

You have to struggle with a deep level of your own psyche that is demanding freedom and personal expression. As this deep force inside of you emerges you can be left feeling frustrated or alternately learning from profound mistakes. It is hard for you to avoid feelings of alienation at such times, but if your efforts can be put into dealing effectively with the needs of others, your own life is much easier.

SECTION X. NEPTUNE - Your Spiritual Aspirations and Ideals.

The planet Neptune has an almost perfectly circular orbit. It represents the part of our nature that strives for perfection, that looks to some higher ideal. The planet Neptune rules the ocean and the part of us that is beyond the limits of the shores of personal existence. The culture moves with the cycles of Neptune and it is the primary indicator of your connection to the culture that you live in. The sign of Neptune shows an ideal that you desire to manifest. The house placement of Neptune shows the area of your life that you want to express this ideal in. The aspect patterns of Neptune indicate the most direct connections yet most subtle networking of your personality into the world at large.

NEPTUNE IN CAPRICORN

You have faith in perfection and see the world as being as it should be. This is depressing from a humanitarian view point, but spiritually you understand in a very primary way that we all, society included, reap what we have sown. And that is perfect. In this sense, you are conservative.

Neptune in 4th house

You go to some trouble to secure the congeniality of your home environment. Your roots in life are tied to your spiritual outlook. You may live in surroundings that strengthen your intuition of psychic perceptions like being near a large body of water or in a spiritual commune.

Neptune in 4th house Unafflicted

Spiritual longings grow stronger as you get older. You are able to create an island of solitude where you can retreat from the day-to-day pressures. As you get older, this

inner fortress stops being so much an escape and more a pillar of stability in your personality.

NEPTUNE IN ASPECT TO THE SUN

You have an aspect of Neptune to the Sun showing that you have a gentleness and lofty vision of life. How this works out is shown by Section II. The Sun - Your Ego Structure.

NEPTUNE SEXTILE YOUR PLUTO

Your higher ideals are the continuous recipient of forceful energy for change. Your long range perspective (even though this may at times be unconscious) is always toward your ideals winning out through deep self transformation.

SECTION XI. PLUTO - Your Need For Fundamental Change.

The planet Pluto represents the dark underground part of you. It shows your ability to transform the most fundamental properties in your own inner nature. The sign of Pluto is the way the obsessive, compulsive and committed part of your nature expresses itself. The house placement of Pluto shows the area of life where you make your most

fundamental and most potent changes. The aspects to Pluto show the deepest most unconscious links in your personality structure.

PLUTO IN SCORPIO

You are very resourceful and penetrating at best. You truly long for regeneration. Regeneration requires intense work on your own inner nature. It is easier to turn your great force on others. At your worst, you are autocratic and ruthless. This side of your nature is transformed as soon as you start experiencing personal growth as pleasurable.

Pluto in 2nd house

Your financial picture is in the extremes. You may well go from poverty to wealth or wealth to poverty at least once in life and maybe more than once. In either case money is a sensitive issue (perhaps even an embarrassment) and plays a large a role in your thinking. However, you do have ability and your skill brings you a good return for your efforts.

Pluto in 2nd house Unafflicted

You instinctively know how to build on past successes. The material side of life takes care of itself eventually and you are free to work on other things. You may feel trapped by your success and abundance as it is all a "paper tiger".

PLUTO IN ASPECT TO THE MOON

Freedom.

SECTION XII. SUMMATION.

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

YOUR MAJOR PLANETARY ASPECT IS A SQUARE.

You have lots of energy and you need it. Your life changes through the resolving of conflicts. You are a fighter and you get clarity by drawing lines between the perceived good and bad of the moment. Your inclination is to be action oriented first, and reason things out after the battle. Your hunches are based on the odds. You take an empirical approach to problem solving. Your keyword is Energy.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Sun in Aries.

The sheer power of your personality is a great aid to you and all your projects. You are action personified and you get stronger through motion. Your pioneering spirit gives you self-definition and awareness. These qualities give substance to your ego structure.

Moon in the Second House.

You have the ability to earn and save based on your solid pattern of habits. You develop a network of personal self-worth that serves you well.

Mercury in the Sixth House.

You like learning and are instinctively drawn toward the critical details of any project. This attribute gives you the right inclination towards your environment. You apply yourself to the most necessary items and take care of them. Your day-to-day focus keeps you in motion so that you have a sense of achievement and progress.

Venus in the Seventh House.

Your natural love for others brings out an inner joy. Relationships are a constant source of self-expression and excitement. You have a deep inner conviction in others.

Mars in Capricorn.

You have ability and a natural knack for seeing opportunity before it will occur. Your stamina is very strong and your timing is impeccable. Your greatest asset is that you know what you want and are willing to go for it.

Jupiter in Pisces.

Your inner confidence and faith in life propel you forward. The personal good that you look for is always in tune with your perception of a social good.

Neptune in the Fourth House.

Your natural feeling for your own life and life in general is very positive. Family and your emotional roots can create a pattern of positive expectation that you can always fall back on.

Pluto in Scorpio.

Your commitment to change is so very fundamental that you are willing to start with yourself. You have the ability to put 100% into everything you do.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts

rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Sun in the Seventh House

You give yourself over entirely to others and then feel betrayed when they don't live up to your expectations. The way out of this confusion is to be more direct in expressing your wishes.

Moon in Scorpio

You are putting the personal life behind you in this life. You live with emotional extremes. You have very strong likes and dislikes. When you overcome moodiness and desire a life oriented toward home and family you are happy.

Mercury in Pisces

You are a dreamer and suffer because your perceptions are so subjective. You think with your feelings. This attribute is wonderful if you are content to live your life without analytic skills. If you wish to study subjects that require focus on detail then you will need practice at separating facts from feelings and preferences. When this is accomplished, your natural brilliance for large scale thinking emerges. You have a gentle mind.

Venus in Aries

Your love nature is too direct to find easy fulfillment. Your enthusiasm is your better side and this emerges in you unabated when you are able to see what is really worthy of love in life.

Mars in the Fourth House

You have tremendous energy for anything you become involved in but your energy has a habit of running into other people's intentions and motives, then going underground. Be more explicit with others as to your true wish. This will help you to sort out your own direction.

Jupiter in the Sixth House

You throw yourself into action without seeing the big picture. Often, you end up putting energy into a situation that cannot work out as favorably as you wish or expect. Check your enthusiasm until you see your future picture of yourself clearly enough that you can envision how it connects with your present course of action.

Neptune in Capricorn

You don't recognize an ideal unless it has the ability to produce some tangible, measurable result. Your life improves dramatically when you search out and promote ideals that you honestly feel are good for all people regardless of whether or not it benefits you directly or not.

Pluto in the Second House

You have great extremes in personal resources in life which reflects the basic contradiction of wanting to be connected to all of life and wanting to be totally private in your appraisal of self-worth. You need to overcome greed and guilt in order to fully transform your life.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Sun in Growth Aspect to Jupiter

You have an optimistic and formal side of your personality that surfaces only slowly. You experience frustration because you can perceive more than you can do. Learning to work with your own limits of endurance without compromising your values is your method of growth.

Sun Semi-Sextile Jupiter

Time and again you have to start projects over because you tend to confuse your priorities and build beyond your foundations. Once timing and procedures are learned your natural optimism emerges in a way that is constructive. You suffer some difficulties when your projects, while performing well in one environment, do not work so easily or directly when translated to a larger scale or a new context. Your belief in life serves you well when it is tempered with patience and good prioritizing.

Sun in Growth Aspect to Pluto

You approach deep transformations tentatively. Frustrations occur every time you try to hurry the transformation process or when you try to avoid it. Life is good when you move slowly but surely toward your better self. Going slow and keeping in motion means staying out of denial. Further, slow steady progress supplies you with the courage needed to face, then deal with, the deeper levels of pain that the growth process requires from you.

Sun Quincunx Pluto

You are forced to focus, time and again, on details that you would prefer to ignore. When life slows down or becomes uncomfortable, simplify and be patient. You are changing and growing in ways that you can scarcely perceive. Stay involved in your everyday routines and only force a change on yourself when you feel stuck in some repetitive pattern.

Saturn in Growth aspect to Pluto

There is an austere streak in your nature that you can use for your development. In order for this quality to be useful to you though, you need to be able to translate the propensities to be frugal, diminutive, and limiting into something that is a productive tool. When this efficiency driven part of your personality is focused on tactical or technical considerations, this tight knit bundling of energy serves you well. Still, for you, "small" should never be an end in itself. In this process of growth you may have to come to terms with the part of your nature that is fearful and the part of you that is fanatical. It may not be obvious to you at first, but this very attribute will force you to develop a deeper grasp of your own psychology as several years of observation go by.

Saturn Semi-Sextile Pluto

Learning how to develop meaningful discipline will lead you to more positive career achievement. Even though your natural inclination is to find some idea or procedure that works, you often lack vision as to how to expand and share your techniques and procedures with others. Reevaluate your situation. Sometimes when you ask too much of yourself, instead of being in the mood of healthy self structuring, you are just being selfish. Look at this closely, then reexamine your fears in relationship to your goals. No discipline, no progress. And, it is also true, if you "play your cards too close to your chest", even you can't see them.

E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

Sun Parallel Pluto

You thrive on intensity. There are deep wellsprings of strength and mystery within you that only seem to gain fulfillment through long protracted struggles. Much of your fighting in life is inner and unconscious. This can surface as allegorical reactions to people or things in your environment. You invoke strong responses from others, everything from ignoring you to direct challenging of you, to wanting to assist you. When you get personal you get focused and your persistence can be a real asset.

Mars Parallel Uranus

Erratic impulses may be rooted in your electrical system for which you need physical action. There is a forceful sometimes explosive energy in you that must find some way of emerging. You are able to be free from the confines of convention which coupled with your quickness, gives you an inventive and forceful nature even if you do overreact to channels from the environment at times.

Pluto Parallel Ascendant

You have tremendous tenacity of purpose underlying your personality. When forced into an uncomfortable position by life circumstances you are capable of holding out for

a point of view or a position in life that is out of step with outer circumstances for a very long time. You have extra energy when an emergency strikes, but, you may need much practice to be able to access this inner force at will or even when you feel you need it.

Sun Contra-Parallel Mercury

A background of mental nervousness prompts you to explore and experiment. There is a vital link between your ability to understand and your sense of self worth. Understanding can come through reading, thinking, talking, traveling, and meditating.

Venus Contra-Parallel Jupiter

Flamboyancy and overreach can give your actions their particular color or hue. Your attitude is generally upbeat and this gets you on the right path toward a lofty goal regardless of the external circumstances of your life.

Mars Contra-Parallel Midheaven

You have a strong drive to run your own career. You need to express your feelings with enthusiasm. Family emotions need to be smoothed out in order to develop positive relationships.

Uranus Contra-Parallel Midheaven

Unusual and erratic work habits are your hallmark. You do best in life when you are self employed and able to do the unique things that spontaneously occur to you each day. Repeatable schedules are tough for you to maintain. You have difficulties establishing your foundations in life but it is essential for you to have some sense of permanence in order for your truly best skills to emerge.

F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the

North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Taurus

Practical concerns and involvement with material progress better your self-esteem which in turn better your life. Concentrate on simple basic principles and patiently accumulate security. Your foundations in life tend to be ignored as your energy is absorbed in overly personal projects. Let the passions of your heart and mind give way to a more matter of fact, simple, detached, and stable pattern of action; be less reactive, more patient and self satisfied.

North Node of the Moon in Taurus and in the Eighth House

You need to overcome possessiveness, stubbornness and fanaticism. Your life improves when you are willing to sacrifice substance and quantity for ideals and quality. Concentrate on other people, their values and making them happy. Overcoming stormy emotions, strange desires and finding balance and peace is a lifetime struggle, but one worth making.
